Uplifting Haumāna

For 26 years, Pauahi Foundation has supported Native Hawaiian students by furthering Kamehameha Schools' mission of fulfilling Pauahi's desire to create educational opportunities for the well-being of people of Hawaiian ancestry. Kamehameha Schools educates and empowers 'ōiwi leaders by operating world-class campuses, and offering community programs and opportunities that share a commitment to Hawaiian culture-based education.

This past year, your remarkable generosity has paved the way for 416 scholarships to be awarded so haumāna can attend their colleges of choice. Driven by their passion, led by their values, and grounded in their Hawaiian identity, 'ōiwi leaders strive to create a better Hawai'i and a brighter future.

Says Alexandra Perry, the 2021 Frank & Ruth Midkiff Scholarship recipient, "I can't thank you enough for blessing me with these awards and having faith in me. I am BEYOND excited to attend Dartmouth College, and plan to major in linguistics and to meet amazing students from all across the world, sharing my perspectives and passions as a Native Hawaiian and learning those of my peers. I then hope to attend medical school and eventually become a doctor here in Hawai'i."

As vital partners who have established and stewarded endowed funds that will support post-secondary students in perpetuity, you are providing access for haumāna to achieve their academic goals and reach their highest potential. With your continued support and generosity, we are confident that the Pauahi Foundation will make an increasingly greater impact in providing educational opportunities to build 'ōiwi leaders and uplift our local and global community. Diverse as our lāhui, every learner has something unique to contribute and your support of their post-secondary education opens the doors to those boundless possibilities.

Engineering the Future

KS ALUM & PAUHI FOUNDATION RECIPIENT REFLECTS ON PAUHI'S GIFT OF EDUCATION AS HIS INSPIRATION TO GIVE BACK

Nearly a decade after graduation, not everyone can recall the name of a teacher from their high school days - but not everyone goes to Kamehameha Schools.

"His name was Mike Massad," said Zandin Burke (KSK'12) with instant recollection. Zandin is a structural engineer, designing the "skeletons" of building structures at an engineering firm in Portland, Oregon. Of the many advantages he gained through his education, he remembers distinctly his first college course, learning a computer-aided design software (CAD), which he first encountered in Mr. Massad's class at the Kapālama campus.

"When my college classmates were learning CAD for the first time, I was tapping into my knowledge from my class at Kamehameha. What was new to them was not new to me, and I had already known for years this is what I wanted to do because of my high school experience. It was an advantage that allowed me to excel."

Now a supporter of the Pauahi Foundation, Zandin traces his success back to his education at Kamehameha Schools and his Pauahi Foundation scholarship. These experiences led him to Georgefox University, where he met his wife, a fellow engineer, who encouraged him to give back to those that provided him his unique educational advantages and his appreciation for his Native Hawaiian heritage.

"Going to Kamehameha, and especially leaving it, I learned the importance of what Pauahi did and left to us. I sometimes think of how I took it for granted when I was young," chuckled Zandin. "I got into Kamehameha Schools in 9th grade. My mom tried to get me in for years, so I had a lot of friends in public schools in Ewa Beach where I grew up. To be honest, I was annoyed at leaving my friends from public school, but after the first quarter, I came to love it at Kamehameha. I met so many amazing people, and I learned how blessed we were and so fortunate to attend.

"I was given so much. It is mind-blowing now as an adult to realize how much Pauahi left to us and how much we had. To have an engineering experience in high school - that is rare. Even the lunches," he laughed, "the lunches are amazing. Everything you get at Kamehameha Schools - the lunches, the activities. I felt I was set up to succeed, and it means a lot to me to give back to something that gave so much."

Each year, Zandin and his wife gift 10 percent of their income to charities and their church. "My heart is with Pauahi Foundation, and I believe in what they do for the Native Hawaiian community - because they helped me. Pauahi helped me. I have become really passionate about giving back to the Hawaiian community. Living in Oregon, I can't do community service on the weekends - but we can donate. We can help those who help others.

A dramatic sunset over a rocky coastline. The sun is low on the horizon, casting a warm, golden glow across the sky and reflecting on the water. The sky is filled with large, dark, textured clouds that catch the light of the setting sun. In the foreground, dark, jagged rocks are scattered across the scene, some partially submerged in shallow pools of water. The water is dark, with ripples and reflections of the sky and rocks. The overall mood is serene and powerful, capturing a moment of natural beauty.
